

Uniting consumers to achieve affordable, high quality health care for all

Ohio Consumers for Health Coverage is fighting for real health care reform. Health care that is:

- Available to all
- Affordable for individuals and families
- Affordable for society
- Continuous
- High quality

As Ohio and the nation consider health care reform, OCHC will be working in 5 areas to ensure consumer needs are met.

- Reforming insurance rules
- Making coverage affordable through public funding for those with lowest incomes and subsidizing coverage on a sliding scale
- Ensuring shared responsibility for the cost of health care
- Requiring insurance companies, hospitals, and the government to report on health care spending
- Increasing quality and cost effectiveness of care to improve outcomes

We need comprehensive reform not just band-aids.

If you believe in these principles, **pledge today** to work to make health care reform a reality in Ohio!
